BEL_BRACKET_12 £1195.00

VERSATILE DESIGN

**COMBINED OPTIONS
GREAT FOR FAMILIES**

Combining a fixed head shower with a handset is a great option for families as handset options can be adjusted to lower heights for children, whilst remaining on the riser. When removed, the added versatility is great for washing children's hair and cleaning the bath or enclosure.

BEL_BSM_12 £1155.00

STATEMENT SOLUTION

The elegant design of the Belgravia white glazed ceramic temperature indices and knob show what temperature has been set, in a classy design to complement modern and traditional interiors.

BELGRAVIA COMPACT

Add a touch of hotel luxury to bathrooms with the elegantly designed Belgravia collection. Traditional white glazed ceramic temperature indices and knobs complement both classic and modern interiors, whilst introducing a stylish statement to bathrooms. The versatile design allows extra flexibility in the bathroom, creating a showerhead that is as stylish as it is practical.

FEATURES

Fail-safe thermostatic control, maintaining selected temperature to within +/- 1.5°C

Water pressure: 1bar minimum

Smooth height adjustable directional hand set

Ceramic disc control for smoother operation

Quick transfer of water from hand set to overhead shower

Automatic safety shutdown should the hot or cold water supply fail

Flow control with integral diverter

COMPACT DESIGN

STILL BIG ON STYLE AND FUNCTION

Not every bathroom has the space for a big showering area. Although standard pipe centres fix the overall width of the exposed valves, our compact designs have been designed to save space where it might be needed. The BEL_MINI and BEL_MULTI are 147mm projection or 22mm smaller than the luxury Belgravia version, offering a surprising amount of extra room in the shower. The height of the riser can also be reduced to suit site limitations.

EASY CLEAN SUPERIOR DESIGN & FUNCTION

Belgravia's 8" fixed shower head option comes complete with rub clean nozzles in order to create a bathroom with exceptional style, quality and function.

THE BELGRAVIA NICKEL COLLECTION

Introducing our latest innovative brassware range, the Belgravia Nickel collection has a sophisticated smooth finish that offers a designer element to traditional bathroom schemes. Perfect for adding

an elegant finishing touch to bathrooms, Nickel evokes a dramatic style against Belgravia's white glazed ceramic temperature indices, whilst displaying ultimate form and function.

TAP HEAD CHOICE

SOPHISTICATED FINISHING TOUCH

Two feminine designs are available to choose from for a sophisticated finishing touch.

NICKEL VS CHROME FINISH

A CLASSIC LOOK FOR THE BATHROOM

Crosswater's products are outstanding examples of design excellence, combined with cutting-edge precision engineering and the very latest water delivery technology. Offering an unsurpassed depth of choice, Nickel is the latest introduction to Crosswater's product range, with a silky smooth and reflective finish that is perfect for introducing a hint of pure indulgence to homes.

BELGRAVIA EXPOSED VALVES NICKEL

Complement your Belgravia bath and basin brassware with matching exposed shower valves.

OUTLET OPTIONS

The traditional style of the Belgravia exposed valve collection offers the option of a single or two outlet valve. Alongside an advanced thermostatic Vernet Cartridge, the clever addition of a second outlet and smooth diverter in the bottom of the valve brings together function and superior style.

DESIGN TO SUIT YOU

SHOWER HEAD OPTIONS

Choose from the standard 8" fixed head, a 12" luxury fixed head or 8" fixed head with rub clean nozzles, each option fits the luxury 35mm diameter rigid rail adding a stylish statement to bathrooms.

Standard - 8" fixed head

Optional - 12" luxury fixed head

Optional - 18" luxury fixed head

ADDED FLEXIBILITY

HANDSET HOLDERS

Enjoy the freedom of a moveable shower head with our three popular handset holder styles. Whether you choose a handset on rigid rail, wall mounted handset or traditional cradle handset holder - each elegant design offers added flexibility in the bathroom.

FOR A FULL RANGE OF BELGRAVIA ACCESSORIES SEE PAGE 316

SHOWERING

A bathroom should be a place for private retreat to unwind and embark on daily rituals, with nothing leaving you feeling as energised as an indulgent showering experience with a warm, refreshing cascade of water. Choose from a selection of soothing multi body jet streaming, revitalising overhead rainfall showers and directional handsets for pure indulgence and wellbeing. Crosswater has thoughtfully considered all requirements from mounted or concealed designs to safe thermostatic valves for single to four-outlet luxury.

SHOWERHEADS	214	SHOWER VALVES	270
SHOWER ARMS	244	BATH HANDSETS	296
SHOWER KITS	246	BODY JETS	298
SHOWER HANDSETS	269	OVERFLOWS, FILLERS & WASTES	300
OUTLETS & SHOWER HOSES	269	DOUCHES	308

SHOWERHEADS

If you've a penchant for contemporary design or if you lean to the more traditional styles, there's an array of sophisticated styles, sizes and ideas to inspire you. All designs are intuitively designed to ensure you have a supreme showering experience every time. We understand showering needs vary and you'll find showerhead sizes range from 150mm to 600mm in diameter. From a deluge of water that pours from flawless statement overhead designs to spa styles that refreshingly drench your entire body, create your ultimate showering experience.

SIZE MATTERS

COMPACT OR LARGE

A smaller head diameter enables a more concentrated down pouring spray pattern whereas a wider, larger head provides a gentle showering experience or for a combination of the two, there's a showerhead options to suit your needs. Featuring designs that encompass intelligent water distribution, you can tailor you showering preferences to exactly how you want them with assuring performance capabilities. Whether you favour a powerful and invigorating shower or a moderately refreshing experience, sizes span from 200mm to 600mm in diameter to ensure there's a dimension to individually suit you.

SHOWER ARMS

CEILING OR WALL MOUNTED?

To help you choose which showerhead design to incorporate, consider your style aspirations and the best water flow to create your desired experience. For an authentic overhead shower choose a style that's affixed to the ceiling, or a shoulder showerhead that's elegantly wall mounted.

Ceiling mount

Wall mount

A WIDE RANGE OF STYLES

MODERN AND TRADITIONAL SHOWERHEAD DESIGNS

The following pages will provide you with the design style, size and effect you dream of minimalist ultra-thin, cool classics and retro modern traditional style. Choose one of our air infusion models for a richer, softer water spray; the thin heads deliver the most even spray imaginable.

FEATURES

- Anti-lime scale function
- Wipe clean water nozzles for a perfect spray
- Choice of brass, stainless steel and ABS construction
- Suitable for all water pressure installations
- Adjustable angle
- Chrome finish face plates
- Swivel ball joint
- Air infusion technology (Essence and Elegance)
- Optional Neoperl® flow regulators to limit shower output to 8 or 6 litres per minute
- Option of ceiling and wall arm installation
- 15 year guarantee

LED FIXED HEADS

GREATER SHOWERING ENJOYMENT

Seek the benefits of chromotherapy that balances energy and achieves spa wellness with the collection of illuminating showerheads, for a revolutionary LED light showering experience. The low consumption LED lamps create a truly magnificent column of water and light with visually stimulating effect.

FEATURES

- Recessed ceiling installation
- Anti-lime scale function
- Double waterfall effect
- Up to 13 light settings
- Low consumption LED lighting
- Wipe clean water nozzles for a perfect spray
- Solid brass construction
- Optional Neoperl® flow regulators to limit shower output to 8 or 6 litres per minute

CROSSWATER IT'S ALL ABOUT YOU RECESSED SHOWER VALVES

Produced from solid brass and finished in durable chrome, all of the recessed valves offer the most advanced thermostatic shower valves available. Chic and minimal styling, they perfectly complement other brassware. Skillfully designed and engineered the valves operate at the set temperature even when other taps are in use. Dual control valves effortlessly allow you to operate the temperature and flow controls and are suited to British plumbing standards.

Approved to TMV2

REVIVE

An innovative choice with multiple water flow channels, Revive is perfect for those in pursuit of a flexibly showering experience. Sleek and streamlined with delicately rounded edges, Revive lets you switch between its waterfall and rainfall shower functions, which can also be operated simultaneously.

DYNAMO ^{NEW}

Beautifully rounded and elegantly illuminated, the Dynamo shower head depicts the ultimate in luxury showering. Ambient light rays beam from the oversized lustrous dome to create a peaceful environment for you to revitalise and rejuvenate in for the entire duration of your shower. Extraordinarily, Dynamo's LED lighting function is powered by the water that flows through it and therefore does not consume any electricity, as there's no need for it to be connected to the mains.

1500RC/1600RC

2000RC/2001RC

3000RC/3001RC

EXPOSED VALVES

PERFECT ACCOMPANIMENT FOR SHOWER KITS

Featuring precisely controlled water temperature levels and immediate response to changing the water flow, these valves are ideal for the family.

Ideal for use with shower kits

Fail-safe thermostatic control, maintaining selected temperature to within +/- 1.5°C

Shower only or bath/shower mixer options

Ceramic disc control for smoother operation

Cool Touch technology

Temperature control has a built-in safety stop at 40°C with manual override for a safer shower

Timeless round or contemporary square designs

Simple to install

15 year guarantee

WRAS approved*

*EV1252RC only

MULTIFUNCTION VALVES

THE ALL IN ONE COMPLETE SHOWERING EXPERIENCE

Simple to install, multifunctional valves offer a fabulous overhead showering experience that incorporates a versatile handset for hair washing or for smaller children to use.

Fail-safe thermostatic control, maintaining selected temperature to within +/- 1.5°C

Integral shower head and handsets

Ceramic disc control for smoother operation

Quick transfer from hand set to overhead shower

Cool Touch technology

Temperature control has a built-in safety stop at 40°C with manual override for a safer shower

Timeless round or contemporary square designs

Simple to install

15 year guarantee

RECESSED VALVES

1000 THERMOSTATIC VALVE

The best flow and temperature for a single fixed showerhead or shower rail using a wall outlet.

Water pressure: Single outlet works from 0.2 bar upwards

Temperature and water flow controlled independently

Suitable for all hot water systems, including gravity fed (0.2 bar minimum) and high pressure (5.0 bar maximum)

Temperature control mechanism has a temperature limit stop which can be preset at any temperature

Temperature handle has a built-in safety stop at 42°C with an automatic safety shutdown should the hot or cold water supply fail

Ceramic disc control for smooth action and no drips

100% solid brass construction and trim set

Fully serviceable from the front

WRAS Approved to TMV2

Wide choice of head options designed to match your brassware

Panel dimension w 120 x h 215mm

A. Water flow to single outlet

B. Temperature

1500/1501 THERMOSTATIC VALVE

The market's favoured two outlet valves. Ideal for a fixed head and shower rail, or shower head and bath filler.

Two outlet valve with diverter to switch between two different shower or bath functions

Water pressure: HP1, 1 bar

Portrait (1500 - shown right) and landscape (1501 - shown below) options

Ceramic disc control for smooth action and no drips

100% solid brass construction and trim set

Only 75mm wall depth required

WRAS Approved to TMV2

Fully serviceable from the front

Wide choice of head options designed to match your brassware

Panel dimension w 120 x h 215mm / w 215 x h 120mm

A. Water control with diverter for two separate outlets

B. Temperature

1600 THERMOSTATIC VALVE

This modern, multifunctional design allows you to switch effortlessly from bath filling to overhead or wall mounted shower.

Bath spout with integrated diverter for overhead or wall mounted shower

Water pressure: HP1, 1 bar

Panel dimension w 120 x h 275mm

Ceramic disc control for smooth action and no drips

100% solid brass construction and trim set

Fully serviceable from the front

WRAS Approved to TMV2

Wide choice of head options designed to match your brassware

1701 THERMOSTATIC VALVE

Our new and luxurious fully integrated two outlet valves can be smartly operated for bath filling with a handset, or double showering with an overhead shower and handset.

Two outlet valve with diverter to switch between bath and shower or two shower outlets

Landscape only

Water pressure: HP1, 1 bar

Ceramic disc control for smooth action and no drips

100% solid brass construction and trim set

Fully serviceable from the front

Choice of styles

Panel dimension w 275 x h 120mm

2000/2001 THERMOSTATIC VALVE

This classic valve features three flow controls and allows you to use two outlets separately or at the same time. Operate a bath with shower, or with two shower outlets.

Perfect for Glide and Revive overhead showers

Two outlet valve with diverter to switch between two different shower or bath functions

Water pressure: Works from 0.5 bar upwards

Portrait (2000 - shown right) and landscape (2001 - shown below) options

Ceramic disc control for smooth action and no drips

100% solid brass construction and trim set

Fully serviceable from the front

Only 75mm wall depth required

WRAS Approved to TMV2

Wide choice of head options designed to match your brassware

Panel dimension w 120 x h 275mm / w 275 x h 120mm

2500 THERMOSTATIC VALVE

Probably the first concealed multi-outlet valve to feature an integral double check valve, negating the need to fit a separate DCV in the plumbing system - saving fitting time and cost. This innovative advancement in valve technology makes the 2500 model the very best valve to install with a bath overflow filler that requires a DCV, with overhead and hand shower fixtures.

Perfect for Glide and Revive overhead showers

Three outlet valve with single diverter to switch between three different shower or bath functions

Water pressure: HP1, 1 bar

Portrait only

Ceramic disc control for smooth action and no drips

100% solid brass construction and trim set

Fully serviceable from the front

WRAS Approved to TMV2

Available for Kai Lever, Svelte, Watersquare and Central

Panel dimension w 120 x h 215mm

3000/3001 THERMOSTATIC VALVE

A high performance two control valve with a three-way diverter. It runs a single shower or bath outlet or for premium showering, switch to run two outlets at once. The perfect option for a bath with overhead shower and handset or a luxurious dual shower set up.

Perfect for Glide and Revive overhead showers

Three outlet valve with diverter to switch between 2 separate outlets or different shower or bath functions

Water pressure: HP3, 3 bar

Portrait (3000 - shown right) and landscape (3001 - shown below) options

Ceramic disc control for smooth action and no drips

100% solid brass construction and trim set

Fully serviceable from the front

WRAS Approved to TMV2

Wide choice of head options designed to match your brassware

Panel dimension w 120 x h 275mm / w 275 x h 120mm

4000/4001 THERMOSTATIC VALVE

An elite and innovative design that's ideal for superior duo showering installations, run four outlets at once from the same valve. Use for two overhead showers and two handsets, or a two outlet showerhead, such as Revive, and body jets.

Perfect for Glide and Revive overhead showers

Four independent flow controls with a single temperature control

Water pressure: HP3, 3 bar

Portrait (4000 - shown right) and landscape (4001 - shown below) options

Ceramic disc control for smooth action and no drips

100% solid brass construction and trim set

Fully serviceable from the front

Wide choice of head options designed to match your brassware

Only available for Kai Lever and Central ranges

Panel dimension w 170 x h 480 mm / w 480 x h 170mm

10 MINI THERMOSTATIC VALVE

One of the smallest thermostatic valves presented, its neat and discreet design continues to deliver prestigious showering performance. 10 Mini has been designed to work smoothly with a single overhead shower or a shower kit with a wall outlet.

Independent temperature and flow control

Water pressure: HP1, 1 bar

Ceramic disc control for smooth action and no drips

100% solid brass construction

Fully serviceable from the front

Only 45mm wall depth required

Wide choice of head options designed to match your brassware

0004 MANUAL VALVE (NON-THERMOSTATIC)

The most economical way to introduce a shower outlet over a bath, the 0004 manual valve is extremely versatile and simple to install with an overhead shower or shower kit.

Non-thermostatic

Simple lever operation for flow and temperature

Water pressure: HP1, 1 bar

Ceramic disc control for smooth action and no drips

100% solid brass construction and trim set

Fully serviceable from the front

0005 MANUAL VALVE WITH DIVERTER (NON-THERMOSTATIC)

The ideal solution for those updating their shower and bath on a budget, this sleek valve with a high performance diverter doesn't compromise on style or function. Operate a bath with shower or a showering area with two outlets.

Simple lever operation for flow and temperature

Water pressure: HP1, 1 bar

Ceramic disc control for smooth action and no drips

100% solid brass construction and trim set

Fully serviceable from the front

CROSSWATER IT'S ALL ABOUT YOU DIGITAL SHOWERING

For a revolutionary experience in digital showering, Elite combines luxury, convenience and innovation. Using just the one wheel control, you can set the perfect shower and bath settings for each family member for a completely bespoke showering experience. This control can switch between outlets in many combinations within your bathroom including the main shower, handsets and your bath. The visual display makes programming Elite easy to use, whilst the App facility allows you to control the system from anywhere in your home.

PRE PROGRAMMED SETTINGS

This innovative control system can be preset to run your exact flow and temperature requirements for the bath and shower temperature settings for up to three family members.

VALVE TECHNOLOGY

Endurance, quality, economy and safety lay at the core of every Crosswater thermostatic shower valve. Vernet CA43 is the world's leading thermostatic cartridge to ensure these qualities by providing smooth and precise control over the water temperature, time and time again.

ENDURANCE

The key element of the valve technology is the ingenious thermo-brain feature. The highly accurate mechanical movement cleverly ensures that a consistent temperature is maintained, even when other outlets, such as the kitchen tap, is in use.

QUALITY

In accordance with British Standard NHS D08, the Vernet CA43 cartridge provides the best temperature regulation and safety measures possible. The thermostatic mixer valve blends the hot and cold water together and reacts instantly to any changes in the water pressure. For example, when a WC is flushed, the cartridge ensures that the temperature is maintained to +/- 1°C. The high quality materials used for this thermo-brain greatly minimise potential limescale on working parts, which enables an extended lifetime and performance of the valve.

PEACE OF MIND

Vernet cartridges are designed and produced to fully conform to the requirements of TMV2 and 3, thus providing users of all ages with the peace of mind that water flow and temperature are consistently provided. Each valve is marked to demonstrate compliance. The anti-scald function is individually checked on each cartridge prior to leaving the factory.

CERAMIC DISC CARTRIDGES

The basis for all high quality shower valves is the performance of the turning parts even after it has been used thousands of times. All of our thermostatic shower valves use Flühs ceramic disc technology - the leading innovator, producer and supplier in the world of water supply products.

Silky smooth operation and water control are characteristic of Flühs products. All raw materials are highly resistant to acid and alkali solutions prevalent in a bathroom (soap, shampoo etc). The ceramic discs themselves provide the very best operation and are highly reliable, even when you have wet and soapy hands. The strength of the ceramic discs is extremely durable to prevent the usual wear and tear, even after years of prolonged use.

CROSSWATER IT'S ALL ABOUT YOU THE BENEFITS OF A CROSSWATER THERMOSTATIC VALVE

A thermostatic mixer valve offers three key benefits: user safety, ease of use and economy.

Safety

Once you have selected your preferred water temperature it will remain unchanging for the duration of your shower, so there's no risk of scalding from a sudden temperature increase and no surprising shocks should the temperature plummet. The Touch Safe range features enhanced technology ensuring the outer surface of the valve is never too hot to touch.

Ease of Use

The thermostatic mixers (single or multiple outlet), will maintain their pre-set water temperature, so whether you switch from one water outlet to another, or turn off the water to shampoo your hair, the thermostat will automatically find the exact same pre-set temperature when you re-commence your shower, allowing you to relax and enjoy the ultimate shower.

Economy

By installing a Crosswater thermostatic mixer you can start to save water and energy from the first day of use. Thanks to the superior shower technology and operation efficiency, a Crosswater thermostatic shower mixer will pay for itself over a short period of time.

EXPOSED THERMOSTATIC VALVES

Sleek in style with high performance, Crosswater's exposed thermostatic shower mixers are simple to operate and look fabulous in any bathroom. Supplied as standard with built in safety controls, we have developed an easy-to-use installation kit for convenient fitting.

FEATURES

Suitable for all hot water supply systems from 0.5 bar pressure

Solid brass construction

Separate flow and temperature controls

¾" outlet and inlet

Facility to set your preferred temperature and leave for the next time you use the valve

Temperature handle has a built-in safety stop at 38°C with manual override button

Ceramic disc control for smooth turning action and no drips

Complete with wall unions for installation

15 year guarantee

Optional Neoperl® flow regulators to limit shower output to 8 or 6 litres per minute

Multifunctional valves can be quickly and easily installed with all water-running elements mounted on the wall exterior to free up valuable basin top space and allow the valves to be maintained or upgraded with ease.

CROSSWATER
IT'S ALL ABOUT YOU
 PERFECT FOR ALL BATHROOMS

Bidets are the epitome of European sophistication, hugely hygienic, practical and economical too. If you have the space, take heed from our designer cousins and choose from floor standing and wall mounted versions. There are also ergonomic douche valves available or a wide selection of bidet mixers to beautifully match basin and bath taps.

ACCESSORIES

Crosswater accessories provide a beautiful array of designs and styles in the smoothest chrome to add that finishing touch to any style from a contemporary en suite or cloakroom to a large traditional family bathroom. Attention to detail prevails in the design of each item to ensure they're styled to perfection, whilst providing the ultimate in performance even in the hardest working bathroom. All Crosswater accessories are made of the finest materials to deal with the rigours of a damp, often humid bathroom. As a result, there's a 10-year guarantee on all accessory ranges.

ACCESSORIES MIKE PRO CHROME

FEATURES

Inspired by cutting edge hotel designs that combine the very highest levels of workmanship with durable quality, which takes bathroom styling to a new level. The restrained elegance and smooth finish of these designs, gives the collection a lightness and beauty that bares the signature of all great product design.

These accessories enrich and coordinate beautifully with several of Crosswater's brassware ranges, particularly the Mike Pro washbasin. The brilliant chrome plated finish translates the high standards of quality seen across these fittings. The genuine crystal soap dish, dispensers and tumblers are made from luxury quality glass and can be removed from the fixtures to conveniently use, refill or simply clean.
